Chicora College

Historical

Chicora College was organized in August, 1893, under the auspices of the three Presbyterian churches of Greenville. Rev. J. F. McKinnon was Principal from 1893 to 1895, and Rev. S. R. Preston, D. D., from 1895 to 1898. In 1898 the institution failed and was reorganized by Dr. Preston as a stock company, and was so conducted by him until 1906.

In the spring of 1906, a majority of the stock of the College was offered for sale to the Presbyteries of Bethel, Enoree and South Carolina, of the Synod of South Carolina, on condition that the remaining stock be secured by the Presbyteries. The offer was accepted and Trustees were appointed to secure a charter, to consummate the action of the Presbyteries and to govern and control the College until their next regular meeting. "The Board of Trustees of Chicora College" was chartered May 30, 1906, and the transaction by which the College became the property of the Presbyteries was consummated on June 1, 1906, a majority of the stock being purchased for \$30,500.00 and the remainder being secured by donation. Those who generously donated their stock were Mr. H. F. Means, Mrs. M. J. Means, Mr. C. E. Graham, Dr. C. C. Jones, Capt. O. P. Mills and the First Presbyterian Church of Greenville.

The Board elected to the Presidency of the College the Rev. S. C. Byrd, D. D., who assumed the duties of the office June 1, 1906.

It being the desire and purpose of the three owning and controlling Presbyteries to have associated with themselves the other Presbyteries of the Synod of South Carolina, they, in the fall of 1906, overtured the Presbyteries of Charleston, Harmony and Pee Dee to unite with them in the ownership and control of the College. These Presbyteries acted favorably on the overture. The college is now owned jointly by the Presbyteries of Bethel, Charleston, Enoree, Harmony, Pee Dee, Piedmont and South Carolina, of the Synod of South Carolina in connection with the Presbyterian Church in the United States.

Control

The College is governed and controlled by a Board of Trustees appointed by the Presbyteries of Bethel, Charleston, Enoree, Harmony, Pee Dee, Piedmont and South Carolina, of the Synod of South Carolina in connection with the Presbyterian Church in the United States, and incorporated under the laws of the State of South Carolina.

Purpose

The institution is a Presbyterian College. It is established, maintained and conducted for the purpose of promoting Christian education in harmony with the Constitution of the Presbyterian Church in the United States.

The supreme aim of Chicora College is to make women; and its conception of womanhood is a graceful and vigorous body, a thoroughly disciplined mind, together with a high moral and spiritual character. We believe that Character is more important than mere in-

tellectual Knowledge, and a trained Conscience more valuable than mere Education; hence while educating and imparting knowledge to the mind, we earnestly desire and endeavor to form Character and to train Conscience. The supreme question of life is *not intellectual, but spiritual*; is not what a woman *knows*, but what she *is*. We hope to give to the Home, the Church, and the State, truly educated, Christian, womanly women.

Location

The College is located in the city of Greenville, S. C. This city is situated on the slope of the Blue Ridge Mountains, and is justly praised as the "Pearl of the Piedmont." It has a population of about 25,000, and is noted for its healthful and delightful climate. It has all the facilities and conveniences of a modern city—telegraph, telephone, gas, electric light, water-works, sewerage and electric street railway systems. The electric street car line passes the College, connecting it with the depots and all parts of the city. The sewerage system and water-works are said to be unsurpassed in the South. The water is supplied from Paris Mountain and is pronounced by the Government as among the purest and best of waters. The healthfulness of Greenville is demonstrated by the Government reports. Greenville is on the main trunk line of the Southern Railway from Washington to the Southwest and is the terminus of the Columbia and Greenville, the Charleston and Western Carolina and the Atlantic Coast Line Railroads. It is, therefore, easy of access from all directions, and may be reached from almost any point in the State within a few hours.

Grounds

The site of the College—McBee Terrace—is in the centre of the city and comprises several acres, ornamented with majestic oaks, shrubbery and grassy lawn. The grounds are attractive and beautiful, commanding a fine view of the city, the river and the mountains. McBee Terrace is 995 feet above sea level.

Buildings

The buildings occupy a commanding eminence in the centre of the city, extending from Main street to Rhett street, 315 feet. They comprise the Administration Building, which contains the President's office, Library, Art Studio and Double Parlors; the Study Hall Building, with adjoining recitation and music rooms; the Dormitory Building, including dining room and other rooms in the Domestic Department, bath rooms with porcelain tubs and hot and cold water; the Infirmary Building, with four large rooms furnished with modern sanitary conveniences; the Gymnasium Building, and the Auditorium, which is in shape an octagon, a beautiful room with a seating capacity of twelve hundred, containing pipe organ, opera chairs, etc.

All of these buildings are practically under one roof and connected, so that there is no exposure to weather. They are heated by steam and lighted by gas and electricity, and are commodious, comfortable and attractive.

Protection Against Fire

Special precaution has been taken to secure pupils against danger in case of fire. The buildings have been inspected and approved by the Insurance Department of the State of South Carolina.

Administration

The government of the College is that of a Christian home. Every feature is under the direct care of the President and his wife, whose earnest and constant endeavor is to promote the physical, mental and spiritual well-being of the pupils. The discipline is gentle but firm; and every effort is made to govern the girls by putting them on their honor and appealing to their sense of right, propriety and innate pride of true, noble, gentle womanhood. Such a watchfulness over the pupils is maintained as is prompted by affection and a sincere desire for their happiness, development and highest welfare. Honor and truth are inculcated, and only such rules as are needful for the orderly government of a large family are prescribed.

We hope to do for the daughters of others committed to us just what we would wish the authorities of a College to do for our own daughter whom we might entrust to their care.

Religious

"That our daughters may be as corner stones, polished after the similitude of a palace." Ps. 144:12. "For what shall it profit a man, if he shall gain the whole world and lose his own soul." Mk. 8:36. Prominence is given to religious training and influence because "to glorify God and to enjoy Him forever" is the chief end of man. *Pro tempore et pro aeternitate*. Again, the character of the Church and State is determined by the Home Life of the people and *the women determine largely the Home Life*. The religious influence of the College is regarded by all connected with it as of the

first importance. Singing, prayer and reading the Scriptures are a part of each day's exercises, and all the students are required to attend these devotional services.

Boarding pupils are required to attend Sabbath School and Church services every Sabbath.

A Young Women's Christian Association has been organized and does invaluable service in drawing the students together and developing them in Christian work and study. It is under the immediate supervision of the President and his wife, and the lady members of the Faculty belong to it and take part in its activities. Weekly devotional meetings are held. The Association supports an orphan girl in the Thornwell Orphanage.

While the institution is denominational and the President and his associates are solicitous to bring the pupils under the influence of evangelical religion, yet no narrow sectarianism is disseminated. Several denominations patronize the College, the boarding department having included in the past, Presbyterians, Methodists, Baptists, Lutherans and Episcopalians.

Students are permitted to attend the places of worship of their respective denominations.

Care of Health

Regulations in modern sanitation for the preservation of health are applied in the College. The institution is in the highest sense a school for the body, as well as for the mind and heart.

An arrangement is made by which an attending physician has daily oversight of the health of each pupil. The sick receive the most efficient professional service and the kindest attention.

An infirmary is established, suitably located with reference to the dormitories and furnished with everything needful for the comfort and welfare of the sick. A competent nurse is Intendant of the Infirmary and has charge of all the patients under the direction of the College physician. All pupils who are not well enough to attend to their school duties are required to remain in the Infirmary until they are entirely restored to health.

Parents will be notified promptly of any serious illness of their daughters.

Dress

In dress we endeavor to preserve health, and to encourage economy, neatness and good taste. All boarding pupils, without exception, are required to wear a uniform dress and the Oxford cap.

It is for the best interest of parents, pupils and the College that uniform dress requirements be enforced.

FALL AND SPRING UNIFORM—Oxford cap. White shirt-waist, either plain or simply trimmed. White skirt of cannon cloth, duck, linen or pique, trimmed with same material. No embroidery. Any preferred pattern. Belt to match.

WINTER UNIFORM.—Oxford cap. Black serge coat suit. Plain white shirt waist, linen or some thick material. No muslin or lace trimmed shirt waists will be worn during the winter months.

All pupils must wear high shoes, and high necked, long sleeved undervests.

COMMENCEMENT DRESS.—Any simple white dress made of muslin or lawn; high neck; long or elbow sleeves; either plain or simply trimmed. No colored ribbons.

The fall and spring uniforms may be made at home. The winter uniform is ordered by the College after the session opens. By placing the order for this uniform in bulk, both the material and the making are obtained at less cost than could be done at home.

No uniform is required for every-day or school use.

Articles to be Furnished by Students

Every boarder in the College must furnish two sheets, two pillow cases (27x18 inches), one pair of blankets, one counterpane, towels, toilet articles, doilies and doily rings.

Every boarder must be provided with a waterproof, an umbrella and overshoes, and with a teaspoon and drinking glass for private use in her own room.

Pupils are allowed to bring any other articles they wish for the comfort and adornment of their rooms.

16. Pupil's Promise: I do hereby solemnly promise on being matriculated as a pupil in Chicora College, that

I will strictly obey all the rules and regulations of the College while I remain a pupil therein.

The Faculty

While beautiful grounds, commodious buildings and complete appointments are exceedingly helpful in securing the best results in a College, yet we realize, and readily admit, that these do not make a College, and, indeed, are not even the chief factors in a high-grade College. Therefore, while endeavoring to furnish one of the best equipped and most attractive College plants in the State, we have recognized the imperative necessity, and felt the responsibility, of securing a large, strong and competent Faculty of earnest, faithful and professionally trained men and women of high Christian character and purpose. Hence, the greatest care is exercised in the selection of officers and teachers. The teachers must be members of the Church, exemplary in character and conduct, specialists in their respective schools, and must have a tender regard and sympathy for the pupils in all their interests.

The Scholastic Year

The Scholastic Year begins on the third Wednesday of each September and continues for thirty-six consecutive weeks. The session is divided into two terms.

The First Term of the next session begins September 14, 1910, and closes December 31, 1910.

The Second Term begins January 1, 1911, and closes May 23, 1911.

Holidays

The following regular holidays are given:

Thanksgiving Day.

Two weeks at Christmas.

Washington's Birthday.

Confederate Memorial Day.

Occasionally, as may seem desirable, books are laid aside for a half day, or a day, and the time spent in suitable recreation.

Examinations

Comprehensive examinations form a part of the regular exercises of the College. Partial review examinations, oral or written, are held at the option of the teacher. There are two regular written examinations of all the classes every session, viz:

1. The Intermediate Examination, which is held at the close of the First Term on all the studies of that term.

2. The Final Examination, which is held at the close of the Second Term on all the studies of that term.

Graduation

Every student is graded on each of her class-room exercises. Special work and optional examinations rank with daily recitations.

Grading is on a scale of 0-100.

No student will be approved for promotion or graduation who does not make a grading of 75.

In determining the standing of students, the average of class-marks for daily recitations, special work and op-

tional examinations is combined with the mark for the term examination on the basis of two-thirds and one-third respectively.

Reports

Quarterly and Term reports on gradation, attendance, diligence, and deportment are sent to parents and guardians. The design of these reports is to give full information of the conduct and progress of the students, and to secure the co-operation of parents and guardians in promoting a faithful discharge of duties on the part of their daughters and wards. It is earnestly requested that parents and guardians read carefully these reports and communicate the contents to their daughters, commending them when the reports are good, and holding them to strict account when the reports are not good.

A "Golden Report" is given students making an average grade of 95 on all their studies and deportment.

Entrance Requirements

Applicants for admission into any class in any department of the College must be proficient in those studies, or their equivalent, which are embraced in the class immediately below that which it is desired to enter.

The Course of Instruction embraces two departments: The Academic and the Collegiate.

Outline of Courses Leading to the L. I. Degree

There is a large class of pupils who for various reasons cannot remain in College long enough to complete the regular classical courses, and yet many of whom desire to prepare themselves to become teachers in the public schools. To meet the needs and wishes of such pupils we have introduced into our curriculum a new course to be known as the Normal Course. Pupils who complete this course will receive a diploma, with the degree of Licentiate of Instruction. This diploma is a life license to teach in the public schools of South Carolina.

4. School of Mathematics

No department is more important than this for the development of accurate thinking and reasoning. The course, as arranged, is what experience has shown that all girls may comfortably accomplish. The temptation to most young women is great to neglect the study of mathematics; but nowhere is the evidence of such neglect sooner manifested, or the penalty for it swifter, than in this exact science. It is urged that the more earnest attention be given this school in proportion as natural aptitude is wanting.

The following course is designed to make students familiar with those principles that bear directly upon practical questions, and to develop the ability to grasp and prove new truths.

Many works of interest are prepared and given public performance.

C. The College of Art

The intrinsic value of Art is impressing itself upon educators of today, as is seen by the growing importance attached to its study in the best of our public schools. The benefits derived from this study are manifold: a broader culture, a higher conception of nature, a keener insight into character. The trained eye detects the inherent beauties in the commonplace, the skilled hand converts the commonplace into the beautiful.

The College offers a four years' course, the completion of which entitles the student to a diploma with the degree of Associate in Art.

D. The College of Elocution

Students' recitals will be given monthly to stimulate the pupils and give ease and confidence of manner before an audience.

E. The College of Gymnastics

The Swedish system of Gymnastics combined with the Delsarte Method is used.

The aim primarily is health and recreation—but Physical Training is not only toward health but toward skill and grace as well—hence it assists in the education of attention, for correct repression, impression and expression. The movements are educational, military, and aesthetic, and are designed to encourage nature in her normal activity and also to prevent and overcome tendencies to abnormal development. The work is progressive, going from the simple to the complex. It leads to aesthetic work, yet simple enough to teach to the smallest child in the schoolroom. It includes correct standing, walking, Harmonic poising, marching, running, Free Hand exercises, the use of Dumb Bells and Indian Clubs, and all apparatus found in a well equipped Gymnasium—drills, and out door games—such as Tennis and Basket Ball.

The classes will be arranged as the needs of the pupils require, at the discretion of the director.

There will be a normal course for those who wish to specialize in this department and prepare for teaching.

Each student must have Gymnasium suits and shoes. Costume used will be bloomers and blouse waists, black.

The College has a well equipped Gymnasium.

J. The College of Business

The demand for expert stenographers, amanuenses, office assistants, book-keepers and reporters, renders this field inviting to young people as a source of future income. Were there no such demand, every girl should be skilled in all the ordinary commercial practices. The knowledge of how to keep an account, conduct business correspondence and attend to ordinary banking, etc., is of great value to every woman, especially if she be required to look after property of her own.

But in order to be successful in these, it is evident that a liberal education and general culture are necessary. Hence, there must be proficiency in English and an extended knowledge of History. These branches are, therefore, required with this course.

The College of Business is divided into the following distinct schools:

1. The School of Book-keeping.
2. The School of Stenography.
3. The School of Typewriting.
4. The School of Penmanship.

1. The School of Book-Keeping

First Year.—Double and Single Entry Accounting, including Commission, Commercial Terms and Phrases, Commercial Law, Commercial Arithmetic, Commercial Papers, etc.

2. The School of Stenography

First Year.—Benn Pitman's Manual of Phonography. Day's Shorthand Dictionary.

Second Year.—Review of Principles; Phonographic Reader; Universal Dictation Course.

3. The School of Typewriting

The Touch System is taught in the Typewriting Department. Pupils who learn this system will write with greater facility and rapidity. The World's Champion typist uses this system.

This Department is equipped with Standard Typewriters.

4. The School of Penmanship

Business and Ornamental Writing, Marking, Engrossing, German Text, Pen Drawing and India Ink Shading.

However well a pupil may understand all the other branches in our curriculum, she cannot hope to succeed without a neat, legible and rapid hand-writing.

Almost any one can acquire a good hand-writing if she will give it reasonable time and attention. Be not deceived, "All great men" may "write a bad hand," but all who write badly are not great.

Intelligent practice makes perfect.

Ear, Eye, Nose and Throat

The addition of this department is in response to the great need of our schools and colleges for the highest physical development. Vision is the most important sense by which we hold communion with the external world. Education imposes a great tax on this organ; weak eyes are becoming one of the prices of an education, largely through ignorance of the proper care of them. The eyes and ears of all children should be carefully examined when they first enter the public schools, because

a large per cent. of defects exist, which if discovered and corrected early in life, will not only rescue many from a dull and listless career, but often save precious lives.

We hope by instructing our future teachers in this important subject, to fit them for a systematic examination of the school children of the future. Dr. Carpenter will deliver several lectures during the session on this subject.

Societies

There are in the College two Literary Societies, which afford a wide scope for original work, for application of the knowledge gained in the courses of study, and for literary development.

There is also an Alumnae Association which meets annually during Commencement, and is composed of all the full and partial graduates of the College.

The Chicora Almacén

THE CHICORA ALMACÉN is a handsome literary periodical, which is edited bi-monthly by the student-body.

Lectures and Concerts

It is the purpose of the College management to provide, on suitable occasions during the session, good lectures, concerts and other entertainments of a literary character. It is believed that these constitute no small factor in the development of mental and moral culture, besides furnishing needed recreation and enjoyment to the pupils.

Social Features

At stated times the drawing-rooms of the College are thrown open, and the young ladies and teachers receive their friends. These occasions are pleasant breaks in the routine of college life, and also are most valuable in cultivating ease and grace in society.

Prizes

A copy of the Bible is given to the pupil who attains the highest average grade in the School of Bible in the Freshman, Sophomore and Junior classes.

First and second spelling prizes are offered in the spelling classes maintained in the College.

Roll of Distinction

The names of pupils making a general average grade of 95 in studies and deportment for the entire session are placed on a Roll of Distinction, which is read publicly at the Graduating Exercises and published in the Catalogue.

Medals

The following medals are offered for the next session:

1. The Scholarship Medal, offered by the President, to the graduate in the College of Liberal Arts and Sciences who attains the highest average grade on all the studies prescribed for the Sophomore, Junior and Senior Classes.

degree of Associate in Art who completes the studies prescribed for this degree on page 46.

(7) A diploma is awarded to every pupil who completes the studies required for graduation in either the College of Expression, the College of Physical Culture, or the College of Business.
